Professional music file cleaning

Welcome to CleanMyMusic

CleanMyMusic is a professional desktop application that automatically cleans music filenames and metadata. Whether you want to fix one album or an entire library — CleanMyMusic gets it done in seconds.

Feature overview

Feature	Tab	Price
Clean & rename filenames	Album Cleaner	Free
Update metadata tags	Album Cleaner	Free
Convert FLAC to MP3 / ALAC / WAV	Convert Audio	Free
Clean entire library in one click	Library Cleaner	€ 12

Tab 1 — Album Cleaner

Album Cleaner lets you clean the filenames of one album folder at a time. A preview is shown before anything is applied.

1	Click Browse Select the folder containing your audio files.
2	Choose album type Let the app auto-detect, or choose manually: standard album or compilation.
3	Click Generate Preview Current filenames appear on the left, improved names on the right.
4	Review the preview Everything looks good? Proceed to the next step.
5	Click Apply Changes Files are renamed instantly. Done!

Tip: enable 'Update metadata tags on apply' to also automatically update the embedded tags (artist, album, track number).

Tab 2 — Convert Audio

Convert Audio converts FLAC files to MP3 (320 kbps), ALAC/M4A or WAV. Requires FFmpeg — free download at ffmpeg.org.

1	Click Browse Select the folder containing your FLAC files.
2	Choose output format MP3, ALAC or WAV.
3	Click Scan FLAC Files The app shows which files will be converted.
4	Click Start Conversion Conversion begins. Progress is shown in the log.

Options: keep or delete original FLAC files after conversion. Output can be saved in the same folder or a separate one.

Tab 3 — Library Cleaner (€ 12)

PAID FEATURE — one-time € 12, no subscription

Library Cleaner processes your entire music library in one click. All album folders are automatically detected and cleaned.

1	Make a full backup Do this BEFORE using Library Cleaner. This is mandatory.
2	Click Browse Select the root folder of your music library.
3	Click Scan Library The app detects all album folders.
4	Confirm your backup Check 'I have made a full backup'.
5	Click START LIBRARY CLEAN All albums are processed automatically.

Purchase: click 'Buy Library Cleaner' in the app. After payment you will receive a license key by email. Enter it in the key field and click Unlock.
